PRESS RELEASE

The McHenry County Division of Transportation (MCDOT) is initiating a rehabilitation project for the Charles J. Miller Road bridge over the Fox River. This project is a key part of their county-side proactive bridge maintenance program, designed to ensure the long-term safety and reliability of our transportation network.

By addressing the needs of this vital bridge now, they are taking a strategic, preventative step to extend its service life, enhance safety for all users, and ensure it remains a dependable connection for the community for decades to come.

The Fox Waterway Agency will implement a NO WAKE restriction in May for the duration of the project, which will remain in effect throughout the entire 2026 boating season.
