

Illinois Department of
Natural Resources **MEMORANDUM**

To: Director Colleen Callahan

From: Jerry Costello, OLE

Date: 10/18/2019

Subject: Conditions on the Fox River from the Stratton Lock and Dam south to the Bridge Street Bridge (Millington) in Lake, McHenry, Kane, and Kendall Counties.

Northeast Zone Commander Jed Whitchurch, District 3 Sergeant Dave Wollgast, and District 2 Sergeant Eric Schreiber report the conditions prompting the boating restriction are no longer significant. Lake County Marine Unit Lieutenant Lou Kent, McHenry County Marine Unit Commander Dave Carter, Kane County EMA Director Sean Madison, and Kendall County Sheriff Dwight Baird concur with the assessment.

The Illinois Department of Natural Resources has authorization to lift Restricted Boating Area designation when navigation is no longer significantly dangerous.

Section 2030.80 Hazardous Navigation Conditions - Designated Restricted Boating Areas

In the event that the Department of Natural Resources determines the presence of conditions that make navigation of a body of water significantly dangerous to the public, the Director of the Department of Natural Resources may, in coordination with the federal government, designate Restricted Boating Areas on any affected body of water within the jurisdiction of the State of Illinois. This designation shall be made by public announcement in local media and by posting at local public boat launches and marinas, and the restricted area shall be physically marked by buoys, signs, manned watercraft or yellow police tape. This designation will remain in effect until the Director of the Department of Natural Resources determines that navigation is no longer significantly dangerous to the public, but in no case shall the designation remain in effect longer than 90 days. Recision of the Restricted Boating Area designation shall be publicly announced in local media and posted at local public boat launches and marinas and any markings shall be removed.
